

#### 4.4 - Delivery and Design of DSMES Services

Evidence that DSMES team reviews overall DSMES services offered to ensure content is current with practice and meeting the needs and preferences of the target population and reflects current evidence, practice guidelines and cultural appropriateness at least annually. Please attest to one of the following:

- Evidence of a DSMES process that has been updated to improve patient care
- Evidence of a patient education material that has been updated to improve patient care
- Evidence of a team meeting with agenda and summary of action items
- Overview of review process and updates to programming as a result.
- Other evidence that DSMES services are being reviewed for current evidence and guidelines
